# **A Study of Biointerfacing polymeric membrane barriers for sensors**

**By: Sarah Rashid**

**This work is dedicated to:**

**My beloved parents Mr. Rashid Ahmad and Mrs. Zarin Rashid  
and my loving children Mariya, Daniya, Kashifa and Adeela.**

# **Acknowledgements:**

**I would like to thank Prof. P. Vadgama for his never ending support during the entire duration of my studies. I also want to thank staff at SEMS and my family, parents and especially my loving daughters for their help and support during my studies.**

**I also thank EPSRC for the funding for this project.**
